10:25	Coffee & Tea Break
10:30	Press Conference (in parallel to Coffee & Tea Break)

Sunday, 15th June 2008 -- continued

11:05

Panel One: Cities, Visionary Long-Term Planning

China is escaping from its own legacy and now invests, with a very long term view, in its new infrastructure. In parallel, the exodus from the rural areas towards the urban centers is accelerating. The cities are growing very fast, with a number of obvious difficulties, but also the opportunity to invest in the right type of infrastructure, due to that new critical mass. Public/ private partnerships could become more and more an option. However remains the risk of major natural disasters/epidemics, which needs to be talked well before they occur.

Introductory Statement

- Dr. Martin Bruder Müller, Member of Executive Board, BASF

Podium Discussion among panelists

Questions & Answers with floor participants

Moderator:

- Dr. Jonathan Woetzel, Director, McKinsey Shanghai

Panelists (in order of initial statements):

- Dr. Hu Wantai, Vice Director, Chongqing City Planning Bureau
- Mr. Gerd Sippel, Deputy Country Director, GTZ China
- Dr. Yu Yin, Director, Chongqing City Planning R&D Center
- Dr. Michael Spranger, Expert Earthquake/Geo Risks Research Hong Kong Branch, Munich Re
- Ms. Zhu Lixia, Director, Research Center Chongqing Earthquake Bureau

12:20

Buffet Lunch

13:30

Keynote speech

- Mr. Yao Weike, Deputy Director of International Cooperation Department, Chinese Ministry of Science and Technology

Sunday, 15th June 2008 -- continued

13:45

Panel Two: Energy Efficiency and Transport

China's rapid growth implies a huge need for energy. Coal does not suit all purposes, petrol generates an import dependency, and alternative energy sources are not yet well developed. It is therefore in the interest of the country as a whole, and of its citizens as well, to optimize its energy efficiency. Transport plays an important role in that context, with a right balance between public and private transport, new types of cars and fuels (environmental friendly). Regulatory measures, such as smart traffic control in the city centers, can also play an important role.

Moderator:

- Zhang Taixiong, General Engineer, CQ Transport Committee

Panelists

- Ulrich Walker, Chairman and CEO, Daimler Northeast Asia
- Ren Xiaochang, Director, China Automotive Engineering Institute
- Dirk Hoke, CEO of Mobility China Division/SVP of Siemens China
- Prof. Shao Yiming, Dean, Traffic & Transport Institute of Chongqing Jiaotong University
- Dr. Peter Kilgenstein Executive Vice President, Bosch (China) Investment

14:45

Coffee & Tea Break

Sunday, 15th June 2008 – continued

- 15:15 Keynote speech
- Jutta Ludwig, Executive Director, German Chamber of Commerce in China
- 15:30 **Panel Three: Industry, Logistics & Corporate Social Responsibility**
Cities can choose to specialize on certain types of activities, for example industry or services, which will drastically change their face. There is more and more an awareness to revisit high energy consumption industrial processes. The legislation will also introduce more standards for a healthier life. The logistics has become an inherent part of the production/distribution process. Control of CO2 emissions already is an important political topic. And now that companies play a bigger role in the overall society, Corporate Social Responsibility becomes a priority.
Moderator:
- Dr. Frank-Jürgen Richter, President, Horasis
- Panelists (in order of initial statements):
- Dr. Monika Wulf-Mathies, former EU-Commissioner, Executive Vice President, Deutsche Post World Net/DHL
 - Dong Ronghua, Vice General Manager, Chongqing Steel Group
 - Johannes Dell, Executive Board Member, AS&P – Albert Speer & Partner (Shanghai)
 - Jia Jianguo, Vice President, Chongqing Chemical & Medical Holding Group
 - Prof. Zhang Qinghong, Director of Allianz Chair for Insurance Studies at Tongji University Shanghai
- 16:30 Coffee & Tea Break
- 17:15 Chongqing Introduction by Development & Reform Commission and Foreign Trade Committee
Host:
- Dr. Claude Béglé, Executive Vice President, Deutsche Post World Net/DHL
- 17:45 Executive Dinner
- 19:00 End of conference program first day

Monday, 16th June 2008 (Chongqing Specific Day)

09:00

Political Address

- Zhang Yong, Vice Director Chongqing Environment Protection Bureau

09:20

Panel Four: Chongqing Environment and Water Protection

The awareness around environmental issues is growing, not only in the West, but also in China. As a result, a new legal framework is being put in place, where China is interested to know about Europe's experience. Advanced technologies can be helpful to achieve both a better energy efficiency and a good environment protection. The water is, in particular, a topic of high interest, for example rural drinking water supply and environmental protection of secondary rivers.

Moderator:

- Claudia Wanner, Financial Times Germany

Panelists (in order of initial statements):

- Ji Chunlou, Vice Director, Chongqing Water Conservancy Bureau
- Dr. Roland Winkler, Director Project Development, Econet China
- Prof. He Qiang, Vice Director, CQ Municipal Government Committee
- Mr. Nicolas Zuber, CEO, Herrenknecht Asia-Pacific
- Dr. Lu Lei, Head of Engineering, Chongqing Water Treatment Group
- Prof. Dr. Ümüt Halik, College of Resources and Environmental Science
Xinjiang University

10:40

Coffee & Tea Break

Monday, 16th June 2008 (Chongqing Specific Day) -- continued

11:10

Panel Five: Clean Production with a Focus on Heavy Chemical Industry

Germany has successfully realized the conversion of its former highly polluting heavy industry. China is also taking some measures in the same direction. An exchange of experiences would be useful, with particular focus on the heavy chemical industry. This goes side by side with an increased awareness of the Corporate Social Responsibilities by the concerned enterprises.

Moderator:

- Ms. Claudia Wanner, Financial Times Germany

Panelists (in order of initial statements):

- Mr. Johnny CW Kwan, Chairman Greater China Country Board, BASF China
- Mr. Jia Jianguo, Vice President, Chongqing Chemical & Medical Holding Group
- Mr. Arne Gooss, Director, KfW Office Beijing
- Mr. Gou Hua, GM, Chongqing Chemical Industry Park Development

12:10

Conference Closing

Moderator:

- Mr. Ai Yang, Vice General Secretary of Chongqing Municipality (tbc)

Closing Addresses

- Dr. Wolfgang Röhr, Ambassador, German Federal Foreign Office
- Mr. Zhou Mubing, Vice Mayor of Chongqing Municipality

12:30

Buffet Lunch
